Internship

C++ Intern | OOPs and DSA

May 2023 - Jul 2023

CSE Pathshala

- Developed a Student Management System using C++ to manage student records (add, update, delete, and search operations).
- Applied Object-Oriented Programming concepts such as encapsulation, inheritance, polymorphism, and abstraction.
- Implemented core Data Structures and Algorithms (arrays, linked lists, stacks, queues, trees, graphs) for efficient data handling and problem-solving.
- Tech: C++, STL, OOPs, DSA

Cloud (AWS) Intern

Feb 2022 - Aug 2022

Techplement

- Monolithic Architecture: Deployed WordPress and MySQL on a single EC2 instance.
- Microservices Architecture: Created separate EC2 instances for WordPress and MySQL, ensuring isolation and scalability.

Projects

TryHackMe | Cybersecurity Labs & CTF Practice

Jul 2022 - Aug 2022

- Completed hands-on labs covering network security, penetration testing, and exploit development.
- Practiced real-world vulnerability exploitation (CVE-2019-9053, Shellshock, LDAP pass-back attacks).
- Developed automation scripts for penetration testing workflows.
- Tech: Linux, Bash, Python, Nmap, Burp Suite, Wireshark, Metasploit

Hairstyle Recommendation App | Python3, Linux, Bash, LPU

Feb 2021 - Mar 2023

- AI-powered app recommending hairstyles based on face shape analysis.
- Implemented face detection, hair segmentation, and gender-based hairstyle filtering.
- Built an interactive Streamlit-based application.
- Repository Link: https://github.com/EltayebGhandiAbdelgadir/ranodom_hair_style_ai

Certificates / Certifications

Junior Penetration Tester

Aug 2022

TryHackMe — Certificate Link

Assets, Threats, and Vulnerabilities

Mar 2021

Google — Certificate Link

Cybersecurity Threat Vectors and Mitigation

Microsoft — Certificate Link

AWS Cloud Practitioner Essentials

Amazon — Certificate Link

Emotional Intelligence & Psychological Power

Noon Center

Skills

Languages C++, Java, JavaScript, C, Python, Bash, SQL

Technologies/Frameworks: HTML & CSS, Bootstrap, NodeJS, TailwindCSS, Node JS, Git, GitHub, Ubuntu, Kali, Wireshark, burp Suite, Nmap

Domain Skills: Problem-Solving, Cybersecurity, Penetration Testing, Red Teaming.

Education

Lovely Professional University

2023 – 2024

Bachelor of Technology – Cloud Computing- Computer Science and Engineering — CGPA: 9.23

Phagwara, Punjab

Al-Qabus Secondary School

2019 – 2020

12 - Percentage: 92%

Sudan, Khartom
